

Erin talking about Honduras ministry in the Dominican Republic.

October Furlough Work

In the past month we presented our ministry in AZ and CA. Mike spoke at churches in Elk Grove, CA, Roseville, CA, Sonoma, CA, and Aliso Viejo, CA. Mike and Erin addressed a church in Tucson, AZ. Erin continued working fulltime at Phoenix Children's Hospital. Mike had numerous lunch meetings with pastors and supporters.

Happenings In Honduras

Team Honduras is flourishing in our absence. Kate is heading back to the US after spending three years in Honduras starting and growing our StreetChild ministry. Our Presbyterian high school is concluding its first school year. And, our team is doing a weekly study on biblical conflict resolution together.

The Dominican Republic

Mike and Erin attended the MTW Latin American mission conference with 400 other MTW missionaries. Mike gave a devotional to youth workers, guided a prayer meeting and met with 20 missionaries for individual meetings. Erin made a presentation about Honduras and sat on a "women in missions" panel. Mike and Erin chaired a fact finding meeting on women in MTW. It was a productive and enjoyable missions conference.

New Missions Jobs For Us

Our missions work is changing. Mike has been assigned new responsibilities within the MTW leadership in Latin America. Our family will continue to live in Honduras, but will move out of La Ceiba. Mike is now responsible for all of MTW's Central American missionaries and mission teams. Erin too will adjust her responsibilities to include a regional focus on medical and mercy ministries, women's issues and missionary evaluation. Our teammate John Clow will take over our work in La Ceiba. Read more on the change here: <http://bit.ly/1pbBXIH>

Our Specific Prayer Needs

- The transition to new missions responsibilities goes smoothly and is received well.
- Our longing to return to Honduras is replaced by a joy to glorify God where he has us now.
- Our marriage grows in Christ and we show each other God's grace in the coming month.
