Sixteen Mission Teams

In June, July and August we hosted sixteen short-term mission teams from the U.S. These teams came from churches in IL, FL, MD, TN, AZ, NC, AL, PA, SC, and CA. They did wonderful work for our ministries in La Fe and Armenia Bonito. In all we hosted 158 short-term missionaries.

Maddy Starts School Year

Maddy our 16-year-old daughter has begun her 11th grade year in her Honduran high school. She is the only gringa in all of high school. Eleventh grade is the final year of school in Honduras, making Maddy a senior. She is excited about school this year. She has many new teachers, including her mother. Erin is the high school's new Drama teacher.

Jennifer Joins The Team

Jennifer Derrick is our new 11-month intern. She arrived in August after two months in Costa Rica attending Spanish language school. Jennifer has a bachelor's degree in Early Childhood Education. She is from Gaston, SC where she recently worked as a kindergarten teacher. Jennifer previously served as a missionary in Kenya and Romania. Pray for Jennifer as we spend the next few weeks identifying where she will serve.

Huge Medical Impact

In August, with the help of visiting mission teams, we hosted 10 free medical clinics in Armenia Bonito and La Fe. Over 470 patients were treated in the areas of general medicine and dental. Most of these were people who would not otherwise receive medical care. Each person received evangelism, prayer and the mercy of Christ.

Hernandez Family's Home

The Hernandez family is one of the poorest families in Armenia Bonito. Before this summer the five of them lived in a small house of rotting sticks. With the help of mission teams we built them a new home with cement floors, block walls, electricity, and indoor plumbing. Praise God.
